

# 60,000 Crates Will Be Sold At Arsenal

To dispose of 60,000 wooden crates now designated as "kindling wood," a government retail sale is being conducted at Joliet Arsenal, it was announced today by Col. Carrol Hudson, commanding officer.

The wooden crates, which formerly were used to ship 75 mm. shells and ammunition into the Arsenal during the war, are free of any contamination. They are being sold for \$1.50 per net ton and there are about 200 tons of the crates at the Arsenal.

The purchaser must do his own loading after buying the crates. Those seeking more information or wishing to buy the commodity are advised to contact Frank Heine, of the redistribution and salvage section. The Arsenal phone number is 2-6661 and Mr. Heine's extension is 2209.
